**FROM ACTIONABLE PATIENT REPORTING
TO EMR SYSTEM INTEGRATION,
COAGCLINIC CAN BE OPTIMIZED TO
HANDLE THE NEEDS OF ANY CLINIC.**

FUNCTIONALITY	BENEFIT
NEAR REAL-TIME INR RESULTS	Near real-time receipt of results that eliminate the hassle and clutter of faxes.
OUT-OF-RANGE ALERTS	Enables a clinic to identify high risk and overdue patients.
ELECTRONIC PRESCRIPTION SUBMISSION	Requires 25% fewer follow-ups and leads to 30% faster enrollment when compared to paper/fax prescriptions. ^{1,2}
HL7 INTERFACE TO EMR SYSTEM	Patient data can be populated directly into EMR, eliminating transcription errors, duplicate work, and providing visibility at all patient touchpoints.
CUSTOMIZABLE REPORTING	Enables a clinic to manage by exception, identify high-risk patients, and track overdue patients. View results graphically for easier spotting of trends.
DIRECT PATIENT MESSAGING	Communicate with patients who use the HealthCheck mobile app or web portal; schedule office visits, send instructions or request updates along with their remote INR test result.

THE HEALTHCHECK PRO APP from Acelis

Connected Health offers easy, convenient access to key CoagClinic features directly from your phone.
