

# HELP REDUCE YOUR CHANCE OF A HOSPITAL VISIT WITH VADWATCH

Acelis Connected Health VADWatch™ Remote Monitoring

## YOUR SOURCE FOR VAD REMOTE MONITORING, DRIVELINE SUPPLIES AND MORE.

Acelis Connected Health is a leading source for external VAD equipment, driveline supplies, and remote patient monitoring services that support your VAD therapy at home.

ACH VADWatch™ Remote Patient Monitoring Services enable you and your practitioner to track key metrics using a choice of easy reporting methods. So you can reduce the likelihood of unnecessary visits to the clinic or hospital.

### REPORTING OPTION ONE

Use the free HealthCheck app

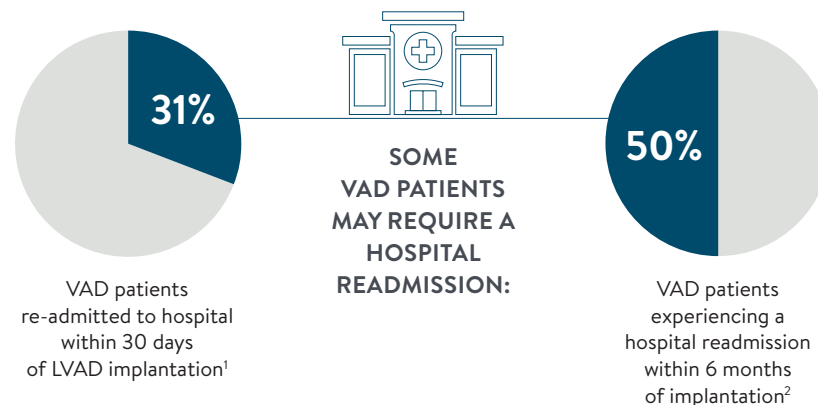

Available for iPhones® and iPads® at the Apple® App Store and for Android™-based phones and tablets at the Google Play Store.\*

### REPORTING OPTION TWO

Visit us on the web from your computer or mobile device at [ACHHealthCheck.com](http://ACHHealthCheck.com)

\*Standard data rates may apply.

## THE RISK OF READMISSION TO THE HOSPITAL AFTER VAD IMPLANTATION CAN BE HIGH

## HELP REDUCE YOUR RISK OF READMISSION WITH VADWatch REMOTE PATIENT MONITORING

“The use of VADWatch Remote Monitoring in conjunction with regular INR testing has shown a statistically significant **52% risk reduction** in LVAD-Associated readmissions regardless of the type of VAD.”<sup>3</sup>

1: Thirty-Day Readmissions After Left Ventricular Assist Device Implantation in the United States, Insights from the Nationwide Readmissions Database; Sahil Agrawal, Lohit Garg, Mahek Shah, Manyoo Agarwal, Brijesh Patel, Amitoj Singh, Aakash Garg, Ulrich P. Jorde, Navin K. Kapur; Circulation: Heart Failure. 2018;11:e004628

2: Bonde P, Dew MA, Meyer D, et al. National trends in readmission (REA) rates following left ventricular assist device (LVAD) therapy. International Society for Heart and Lung Transplantation 2011 Scientific Sessions; April 14, 2011; San Diego, CA.

3: M. Psotka, J. Svetlichnaya, V. Selby, M. Janmohamed, T. DeMarco, G. Wieselthaler, L. Klein, Divisions of Cardiology and Cardiothoracic Surgery, University of California San Francisco, San Francisco, CA, USA, America Heart Association, 2016. A larger cohort or randomized trial is warranted to appropriately evaluate the merits of remote monitoring.

# THE SUPPORT YOU NEED IS WITHIN REACH:

The Acelis Connected Health VAD Services team supports care of your driveline site by you and your healthcare provider. Monitoring your temperature remotely and viewing pictures of the site may help your physician identify the possibility of infection.

## OUR TEAM CAN ALSO:

- ★ Furnish diagnostic testing equipment to you.
- ★ Customize a remote monitoring program with relevant tests that meet your specific goals.
- ★ Send alert notifications and messages to you through your smart device. The VADWatch program uses convenient Bluetooth wireless devices to make reporting your self-test data easy.

Acelis Connected Health's HealthCheck app relays your self-test results to your healthcare team via your tablet or smartphone—delivering your results in real-time, from the comfort of your own home.\*

It also provides your medical team with the ability to send you customized messages and notifications, such as upcoming test dates.

\* Standard data rates may apply.

## OPPOSITE PAGE

\*\* Acelis Connected Health remote INR monitoring is a separate service which can be combined with VADWatch but is not included as part of the VADWatch program. Acelis Connected Health remote INR monitoring requires a separate prescription.

(Tablet may or may not be included as part of VADWatch program.)

## METRICS MEASURED REMOTELY:

VAD Device Parameters	VAD Patient Vitals
Power	Weight
Speed	Temperature
Pulsatility Index	Blood Pressure
Peaks & Troughs	INR**

Forgot PIN

## VADWatch WORKS WITH YOUR DAILY SCHEDULE

There's no need to disrupt your daily activities with clinic or hospital visits. VADWatch remote monitoring lets you complete your testing and communicate with your healthcare provider from the comfort of your own home.

A dedicated customer support team to answer your questions and provide assistance.

Reminder calls will alert you if you forget to test.

Monitoring alerts will notify your healthcare provider of any issues with your VAD equipment.

Replacement equipment is shipped directly to your home or healthcare provider.

The ACH VADWatch program includes the coordination of VAD-related preventive maintenance.
