

CARDIAC RHYTHM MANAGEMENT National Medicare Reimbursement Guide

Cardiac Resynchronization Therapy (CRT-P & CRT-D) Effective January 1, 2024

> Information contained herein for DISTRIBUTION in the US ONLY. ©2024 Abbott. All rights reserved. MAT-1901316 v18.0

> > 1

TERMS AND CONDITIONS

All content herein may be based upon several sources, included but not limited to primary sources, scientific literature, commercially available data sets, customer supplied information, and external sources.

Estimates shown are for illustrative purposes only. This content is not intended for any other purpose.

It should be noted that there are usually differences between economic modelling actual results. Abbott does not take responsibility for any such discrepancies. There is no guarantee of any potential economic outcome, including payment, cost savings, or procedure volume. Economic outcomes are dependent on many factors and will vary.

Certain Maryland hospitals paid under Maryland Waiver provisions using All Patient Refined Diagnosis Related Group (APR-DRG) are excluded from payment under the Medicare Inpatient Prospective Payment System (IPPS).

Reimbursement Calculators should not be provided at no charge to actively licensed Healthcare Professionals (HCPs) who regularly practice in Vermont.

This information is not to be distributed to third parties.

🔁 Abbott

NATIONAL CARDIAC RHYTHM MANAGEMENT MEDICARE REIMBURSEMENT GUIDE

Effective January 1, 2024

Introduction

This content is intended to provide reference material related to general guidelines for reimbursement when used consistently with the product's labeling. This content includes information regarding coverage, coding and reimbursement. Additional resources can be found at www.cardiovascular.abbott/us/en/hcp/reimbursement.html

Biventricular Pacing / Cardiac Resynchronization Therapy (CRT)

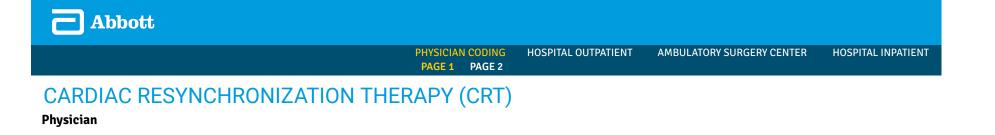

In certain circumstances, an additional lead may be required to achieve pacing of the left ventricle (biventricular pacing). In this event, the additional transvenous lead placement should be separately reported using CPT‡ 33224 or 33225. 33226 is reported for repositioning. See the Cardiac Resynchronization Therapy section for more information.

Reimbursement Hotline

Abbott offers a reimbursement hotline, which provides live coding and reimbursement information from dedicated reimbursement specialists. Coding and reimbursement support is available Monday through Friday at (855) 569-6430. Coding and reimbursement assistance is provided subject to the disclaimers set forth in this content.

Disclaimer

This material and the information contained herein is for general information purposes only and is not intended, and does not constitute, legal, reimbursement, business, clinical, or other advice. Furthermore, it is not intended to and does not constitute a representation or guarantee of reimbursement, payment, or charge, or that reimbursement or other payment will be received. It is not intended to increase or maximize payment by any payer. Abbott makes no express or implied warranty or guarantee that the list of codes and narratives in this document is complete or error-free. Similarly, nothing in this document should be viewed as instructions for selecting any particular code, and Abbott does not advocate or warrant the appropriateness of the use of any particular code. The ultimate responsibility for coding and obtaining payment/reimbursement remains with the customer. This includes the responsibility for accuracy and veracity of all coding and claims submitted to third-party payers. In addition, the customer should note that laws, regulations, and coverage policies are complex and are updated frequently, and, therefore, the customer should check with its local carriers or intermediaries often and should consult with legal counsel or a financial, coding, or reimbursement specialist for any questions related to coding, billing, reimbursement, or any related issues. This material reproduces information for reference purposes only. It is not provided or authorized for marketing use.

CRT procedures are often reported with add-on code 33225. Add-on code 33225 can be performed when medically appropriate with the primary service/procedure codes listed below. Add-on codes may not be reported as a stand-alone and must be billed when performed in conjunction with the primary service or procedure. Add-on codes qualify for separate payment for physicians and are not subject to the Physician Multiple Payment Reduction Rule.

CPT‡	ADD-ON CODE CPT‡ CODE DESCRIPTOR	WORK	MEDICARE N	NATIONAL RATE	REPORT WITH PRIMARY
CODE	(LIST SEPARATELY IN ADDITION TO CODE FOR THE PRIMARY PROCEDURE)	RVU	FACILITY	NON-FACILITY	PROCEDURE CODE
	LEFT VENTRICULAR LEAD PLACEMENT FOR CRT PROCEDURES				
+33225	Insertion of pacing electrode, cardiac venous system, for left ventricular pacing, at time of insertion of implantable defibrillator or pacemaker pulse generator (e.g., for upgrade to dual chamber system) (List separately in addition to code for primary procedure)	8.33	\$442	NA	33206, 33207, 33208, 33212, 33213, 33214, 33216, 33217, 33221, 33223, 33228, 33229, 33230, 33231, 33233, 33234, 33235, 33240, 33249, 33263, or 33264

NA: Medicare has not established a payment amount for this code. Check with your local Medicare Administrative Contractor (MAC) to verify the payment amount.

+ Indicates an add-on-code.

It is incumbent upon the physician to determine which, if any, modifiers should be used first.
