

Remote Monitoring Rates by Location

EFFECTIVE DATES: JAN 1, 2025 - DEC 31, 2025

INTRODUCTION

This guide provides physician information for Remote Cardiac Device Monitoring. In addition, Abbott offers a reimbursement hotline, which provides live coding and reimbursement information from dedicated reimbursement specialists. Hotline support is available from 8 a.m. to 5 p.m., central time, Monday through Friday at (855) 569-6430. Hotline reimbursement assistance is provided subject to the disclaimers set forth in this guide.

DISCLAIMER

This material and the information contained herein is for general information purposes only and is not intended, and does not constitute, legal, reimbursement, business, clinical, or other advice. Furthermore, it is not intended to and does not constitute a representation or guarantee of reimbursement, payment, or charge, or that reimbursement or other payment will be received. It is not intended to increase or maximize

payment by any payer. Abbott makes no express or implied warranty or guarantee that the list of codes and narratives in this document is complete or error-free. Similarly, nothing in this document should be viewed as instructions for selecting any particular code, and Abbott does not advocate or warrant the appropriateness of the use of any particular code. The ultimate responsibility for coding and obtaining payment/reimbursement remains with the customer. This includes the responsibility for accuracy and veracity of all coding and claims submitted to third-party payers. In addition, the customer should note that laws, regulations, and coverage policies are complex and are updated frequently and is subject to change without notice. The customer should check with its local carriers or intermediaries often and should consult with legal counsel or a financial, coding, or reimbursement specialist for any questions related to coding, billing, reimbursement, or any related issues. This material reproduces information for reference purposes only. It is not provided or authorized for marketing use.

Notes:

- 1. The 1.0 Work GPCI floor expired December 21, 2024. Accordingly, Work GPCI's for 2025 do not reflect a 1.0 floor. The 1.0 Work GPCI floor was extended by Section 501 of the Further Continuing Appropriations and Other Extensions Act, 2024 [November 16, 2023] through January 19, 2024. The floor was subsequently extended through December 31, 2024 by section 303 of the Consolidated Appropriations Act, 2024.
- 2. In calendar year 2024 Medicare PFS, CMS retired three California localities: Locality 06, Locality 07, and Locality 26. Locality 06 was previously designated for San Mateo county within the San Francisco-Oakland-Berkley Metropolitan Statistical Area (MSA). Locality 07 covered Alameda and Contra Costa Counties, also part of the San Francisco Oakland Berkley MSA. Locality 26 represented Orange County within the Loss Angeles-Long Beach-Anaheim MSA. These changes were implemented to streamline the locality structure in California from 32 to 29. As a result, the San Francisco-Oakland-Berkley MSA is now represented by a single locality number 5, encompassing San Francisco, San Mateo, Alameda, and Contra Costa Counties. Similarity, the Los Angeles-Long Beach-Anaheim MSA is now unified under locality number 18, covering both Los Angeles and Orange Counties.
- 3. Effective January 1, 2024, the Centers for Medicare and Medicaid Services (CMS) finalized a decision to delete HCPCS code G2066, which was used to report technical services associated with using Insertable Cardiac Monitors (ICM). CMS has added technical service (-TC) and professional service (-26) modifiers to CPT⁺ code 93298, in place of G2066.
- 4. The AVEIR™ Leadless Pacemaker patient transmitter supports the remote transmission of certain data elements from a patient's implanted device. However, it does not transmit heart rhythm data and capture functionality that AMA CPT‡ section guidelines requires a physician or other qualified healthcare professional to review and evaluate to bill CPT‡ code 93294. Per AMA CPT‡ section guidelines, Components that must be evaluated in order to assign this code include the battery, leads(s), capture and sensing function, heart rhythm, and programmed parameters.
